'Free Wine!' - A Natural Wine Bar

Free wine from what is expected, from what is fashionable, from big business, from what has been & from what is old-hat.

Our collection of wine aims to be great. Great wines to drink, great to talk about, important expressions of where they are made, what they are made of and who made them. Our friends: some new, some old.

Some of the wines represented on this list are old friends, they are wines we will continue to love as we watch their evolution.

Some of the wines on our list our new friends, slightly edgy & off-piste, wines that propel us into the future.

There is something interesting to say about every wine on this list & in turn, each wine has something interesting to say back.

Salute

*White grapes from France's Jura region are generally handled one of three ways during the ageing process:

'Ouilé' Which means the barrels are kept topped up during the ageing process, as per most white wines from other parts of the world. These wines are fresher, lighter and comparable in style White Burgundy.

'Sous-Voile' Here, barrels are not topped up and the wine ages under a veil of Flor Yeasts, in a similar way to the dry wines of Jerez (Sherry) and Manzanilla. These wines are fuller bodied and more aromatic with characteristic notes of curry powder, bread dough and often described as nutty or saline. The epitome of this style is 'Vin Jaune': Savagnin which must age for a minimum of 75 months under Flor.

Oxidative Refers to when barrels are not topped up, but the Flor yeasts do not grow either, these wines age oxidatively and stylistically lean more toward the cooked/dried fruit world, with notes of nuttiness, yeastiness, and even umami.

RADIKON

Situated in North-East Italy, right on the border with Slovenia is the picturesque region of Friuli. Here we find the wine estate of Radikon - small in size but whose influence on the natural wine world has been disproportionately large.

In the mid-90's, inspired by his neighbour Josko Gravner, Stanko Radikon turned his family winery on its head by starting to macerate his white wines with their skins for extended periods on time. This drastically changed not only the style but colour of the wine, to a deep amber, and today the name Radikon is synonymous with the term 'Orange Wine'. The macerated white wines are aromatic with white wine flavour profiles but texturally feel more on the palate like red wines, this makes them fantastic options for food pairing.

These days the estate is run by Stanko's son Saša, a huge man with enormous hands! The Radikon style is often imitated around the globe but never replicated. One point that separates the best from the rest is their long and patient investment in ageing of the wines, firstly the extended macerations on skins, followed by long ageing in barrel and finally in bottle, so that the wines are optimal drinking when released.

The reds, often overshadowed, have been a wonderful discovery for us. The local varietal Pignolo translates to something like 'fussy' and is very tannic, but the tannins are softened with the long ageing regime and could rival any of the top Italian red wines.
